

Outstanding accomplishments

We successfully participate in competitions and activities sponsored both by the Ministry of Education and other organisations. These include the National and Regional Science Fairs, Literacy Day/Education Week, reading and Spanish competitions, and the Crossroads Breaking the Cycle programme. We have consistently maintained high percentage passes in the Common Entrance & other National Assessments.

The goals and mandate of our centre provide the opportunity for students with learning difficulties to reach their individual potential academically, socially and with age appropriate behaviour. This must be done taking into account the needs of every student enrolled at K.U.S. Inclusion is an integrated effort incorporating individual tutoring, classroom accommodation as well as parental/home participation.

Parental involvement

Parents are actively encouraged to become involved in the PTA, classroom assistance, field trips etc.

How do we apply for admission?

An interested parent/guardian may make an appointment to visit the school and receive a tour. Prospective students must apply using the form provided by the school. To process the application the school must receive the following:

1. Completed application
2. Non-refundable application fee
3. Proof of place and date of birth
4. Immunization card
5. Passport photo
6. A visit in person with parent/guardian.
